

«Smart City»

Smart city for the
Dushanbe and Tajikistan

SMART CITY: GOALS, VISION AND PROJECTS

Digitalization of the Dushanbe city

The transformation of modern cities through information technology into "smart cities" is a mega trend of our time. The main goal of a "smart city" is to create a comfortable and most ecofriendly living environment, which requires the use of a variety of technologies and technological solutions. There is significant interest and potential for a complete digital transformation of Tajikistan, from new technology companies to e-government, cashless payments and smart city solutions.

«SMART CITY» DUSHANBE

Mayor of Dushanbe, H.E. Rustami Emomali, issued a Decree №276 (dated 07.05.2019) on establishment of the State Unitary Enterprise “Smart City”. SUE “Smart City” operates under the Executive Body of State Power in Dushanbe City.

SUE “Smart City” focuses on various activities, including: urban planning, equipping Dushanbe with ICT and investing in infrastructure, as well as civil security, observance of public order, reducing of local budget costs, increasing investments, profitability and securing local socio-economic development.

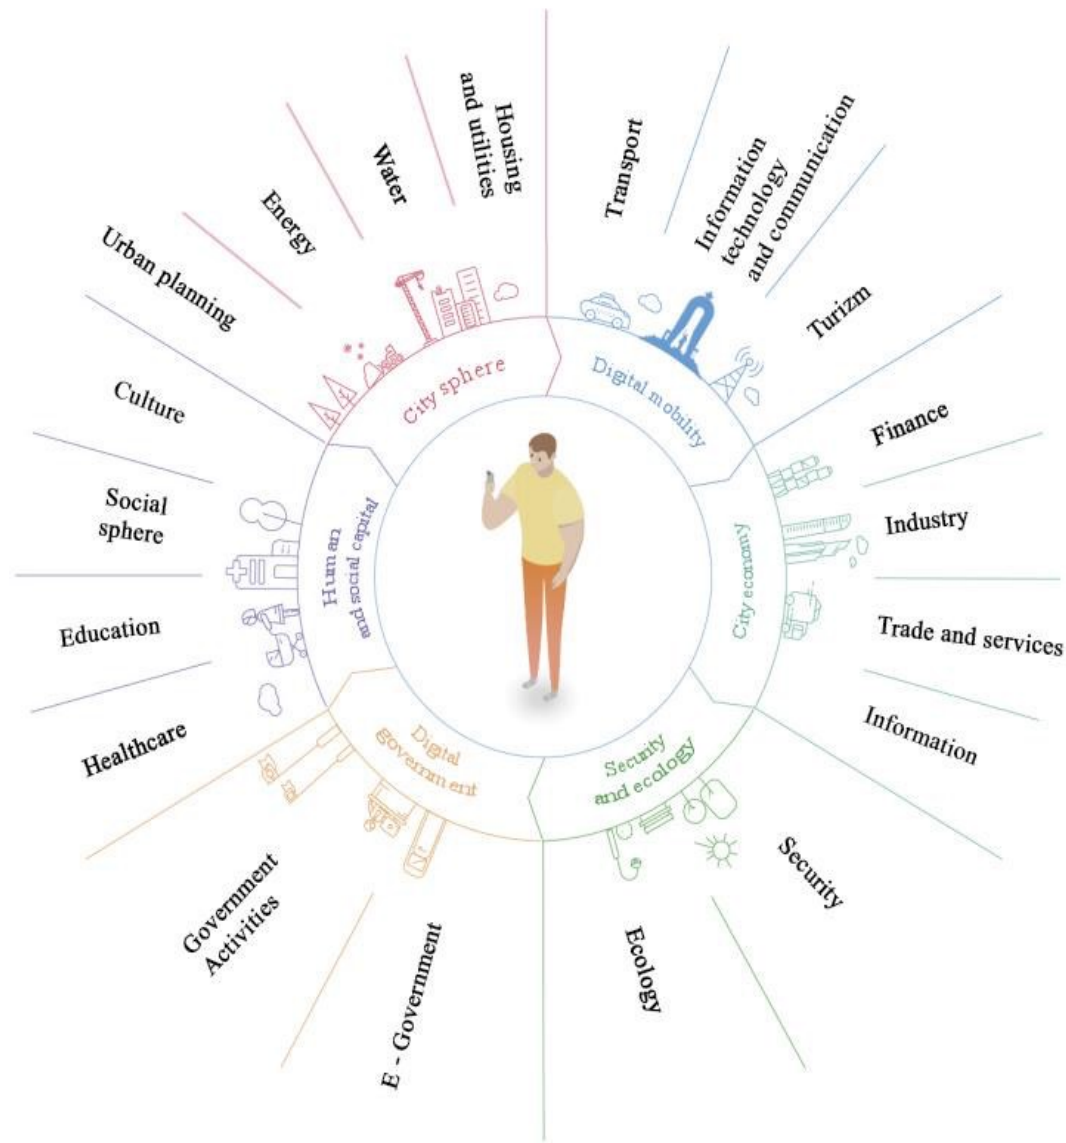

WE'D LIKE TO CREATE A «SMART CITY»

- An innovative city that uses digital technologies to improve the standard of living, the efficiency of activities and the provision of services in the city, as well as the development of competitiveness while ensuring that the needs of present and future generations are met in economic, social, cultural and environmental aspects.

MAIN DIRECTIONS ACTIVITIES

IT-PARK «DUSHANBE»

The IT Park is aimed to develop the IT sector in Tajikistan, as well as to attract IT specialists and companies, start-ups, and remote residents from foreign countries. To encourage IT sphere specialists certain privileges are granted including tax exemptions.
